Ms. Colleen Murnahan, Licensing Assistant
Nuclear Materials Licensing Branch
US Nuclear Regulatory Commission Region IV
611 Ryan Plaza Drive, Suite 400
Arlington, Texas 76011-8064

Ref: NRC Radioactive Materials License # 05-14892-02 Amendment

Dear Ms. Murnahan:

I am requesting that the license listed above be amended to reflect the change from 401 Park Avenue, West, Denver, Colorado to the address listed below:

9. Facilities and Equipment

The sources are currently maintained at the current laboratory address: 16194 W. 45th Drive, Room B127, EPA Region 8 Laboratory, Golden, Colorado. This facility is a secure "authorized personnel" badged facility. The sources are locked in a fire proof cabinet within a key-locked room. Sealed sources are in gas chromatography/mass spectrophotometers, SAM-935 Radiation Identification NaI(Tl) instrument for emergency responders, nerve agent monitors (CAMs, CADsThe GC/MS electron capture detectors (ECD)). Additionally, the emergency response equipment and associated "check sources" may be stored at the Emergency Response warehouse located at **555 W. 48th Avenue, STE#D, Denver, Colorado 80210**. License materials will be used temporarily at job sites throughout the United States and will comply with all DOT transportation regulations while in transport to these sites. Leak tests of the sealed sources are collected by the EPA Region 8 Laboratory Health and Safety Manager. The wipes are analyzed by Detector Service Center, Inc., 9423 Chapel Hill, NC.

Any questions or clarifications regarding this request should be directed to me, the EPA Region 8 Radiation Safety Officer, Dr. Richard Graham, at (303) 312-7080 or graham.richardv@epa.gov. Thank you for your assistance.

Sincerely,

Richard V. Graham, PhD
EPA R8 Radiation Safety Officer
