Pat,

Another option is this:

Mirela Gavrilas has a contract through ISL currently (I am unsure how to contract meshes with SOARCA). I will ask her to see if Dycoda is already a subcontractor.

Thanks,
Richard

Subject: CARS Contract

Scott,

I recently became aware that your staff is very close to finalizing the CARS contract...which involves a subcontract with Dycoda, LLC. Would it be possible for me to talk to you about using part of the CARS contract to have KC Wagner of Dycoda assist on SOARCA?

Thanks,

Richard Chang
