

UNITED STATES OF AMERICA
NUCLEAR REGULATORY COMMISSION
BEFORE THE ATOMIC SAFETY AND LICENSING BOARD

In the Matter of

Docket # 50-293-LR

Entergy Corporation

Pilgrim Nuclear Power Station

License Renewal Application

July 6, 2011

**PILGRIM WATCH REPLY TO ENTERGY'S JULY 5, 2011 RESPONSE AND
OBJECTION TO PILGRIM WATCH MEMORANDUM- SUBMERGED CABLES**

Entergy yesterday objected to "Pilgrim Watch Memorandum - Submerged Cables" filed June 23, 2011. In doing so, Entergy mischaracterized Pilgrim Watch's filing. Pilgrim Watch's Memorandum simply called the Board's attention to new and significant facts. It did not "argue the merits of its contention."

Respectfully submitted,

(Signed Electronically)

Mary Lampert
