Subject: FW: Na-22 request for exemption-other minor license amendments
Attachments: Request for Amendment to Exempt Distribution License 24.doc

Traci,

Please enter this into LTS as a new action. Rich is aware of it and wants it controlled separately from the current action.

Thanks,
Maureen

Hi Maureen,

I received this amendment request electronically. Can you take it from here and have it assigned?

Thanks,

Lisa
PS This is a gemstone licensee

Subject: Na-22 request for exemption-other minor license amendments

Lisa,

Attached is a request for license amendment. The first two items are purely administrative and (I assume) automatic, the third requests an exception to the current limit on Na-22 based on dose rates. I hope this can be approved pending

final NRC rulemaking on this topic. Please let me know if you need anything more or a submission in a different form.

Thanks,
Bill Yelon
