MAY 20 2011

Gregory P. Crouch  
Radiation Safety Officer  
Indiana University  
Jordan Hall, Room 071  
100 E. Third Street  
Bloomington, IN 47405-6801

Dear Mr. Crouch:

Due to a change in NRC's licensing policies, we must obtain possession limits for all materials listed on your license. As we discussed by telephone on April 19, 2011, we have listed the total possession limit for any byproduct with the atomic Nos. between 84-98 as 15 millicuries in Item 8.C. in a corrected copy to Amendment No. 80 to your NRC Material License No. 13-00108-05.

NRC's Regulatory Issue Summary (RIS) 2005- 31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>. A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Please contact me at (630) 829-9839, if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "William P. Reichhold".

William P. Reichhold  
Materials Licensing Branch

License No. 13-00108-05  
Docket No. 030-00692

Enclosure: Corrected copy of Amendment No. 80

The enclosed document contains sensitive security-related information.
