Ladies/Gentlemen:

Docket 50-305
Operating License DPR-43
Kewaunee Nuclear Power Plant
Organizational Changes

With the approaching retirement of Clark Steinhardt, Senior Vice President-Nuclear Power in January of 1999, this letter is to formally notify you of recent changes in the nuclear organization of the Kewaunee Nuclear Power Plant. Effective December 13, 1998, Charles A. Schrock has been appointed to the position of Senior Vice President-Energy Supply. In this capacity, Mr. Schrock will have responsibility for the power generating units of Wisconsin Public Service Corporation (WPSC) including the Kewaunee Plant. Mr. Schrock will report on all nuclear activities to Larry Weyers, Chairman & Chief Executive Officer of WPSC. The Nuclear Safety Review and Audit Committee will now report to Mr. Schrock. Additionally, Mark L. Marchi, Site Vice President-Kewaunee Plant, will fill the newly created position of Vice President-Nuclear and report to Mr. Schrock. Mr. Marchi will serve as Chief Nuclear Officer and have responsibility for all day-to-day operational activities of the Kewaunee Plant. Charles S. Smoker as manager of the quality assurance organization will now report to Mr. Marchi. The Site Vice President position will not be refilled. All formal correspondence should continue to be addressed to Mr. Marchi.

In accordance with Kewaunee license requirements, WPSC has determined that these organizational changes do not affect nuclear safety, and an appropriate amendment to the license will be submitted within 60 days of the implementation of this change. Similarly, appropriate revisions will be made to the Operational Quality Assurance Program Description and submitted to the NRC within 90 days of implementation of these organizational changes.
