Dear Mr. Keppler:

Enclosed are the annual environmental radioactivity reports for 1983 for the Kewaunee and Point Beach nuclear power plants. These reports are being submitted in accordance with the reporting provisions of the U.S. Nuclear Regulatory Commission Contract NRC-30-83-647.

The reports have been divided into two sections. Section I includes the introduction, sampling techniques, analytical procedures, minimum detectable concentrations, EPA Cross Check results and the conclusions. Section II includes the comparison of the Wisconsin and facility data.

The environmental report for the LACBWR nuclear power plant will be submitted within the next month after comments have been received from the Dairyland Power Cooperative.

Sincerely,
