Subject: Reply to a Notice of Violation
Completion of Specialized Training Requirements
Inspection Report 040-08943/10-001
Source Materials License SUA-1534
Docket Number 040-08943

Dear Sir / Madam:

On October 21, 2010 Crow Butte Resources, Inc. d/b/a Cameco Resources (CR) Crow Butte Operation (CBO) submitted a reply to the Notice of Violations issued by the Nuclear Regulatory Commission on August 20, 2010. The reply was in response to a violation issued for failure to provide specialized training to site Health Physics Technicians (HPT's) to meet the requirements of Regulatory Guide 8.31, "Information Relevant to Ensuring That Occupational Radiation Exposure at Uranium Recovery Facilities Will Be As Low As Reasonably Achievable."

In the reply CBO committed to scheduling training classes to ensure that at least one HPT on staff would have the training as required in Regulatory Guide 8.31, Section 2.4. In all, six (6) courses were attended (240 hours) and full compliance was achieved on May 13, 2011 when the site HPT completed the final course to achieve the training requirements specified in Reg. Guide 8.31. All documentation of the coursework attended is maintained on site.
