MEMORANDUM TO: Alexander R. Klein, Chief
Fire Protection Branch
Division of Risk Assessment
Office of Nuclear Reactor Regulation

FROM: Charles E. Moulton, Fire Protection Engineer */RA/*
Fire Protection Branch
Division of Risk Assessment
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF THE JUNE 30, 2011, CATEGORY 2 MEETING
REGARDING THE NATIONAL FIRE PROTECTION ASSOCIATION
STANDARD 805 FREQUENTLY ASKED QUESTION PROCESS

On June 30, 2011, the U.S. Nuclear Regulatory Commission (NRC) staff held a meeting with stakeholders and the public to discuss Frequently Asked Questions (FAQs) at plants that are adopting National Fire Protection Association (NFPA) Standard 805. Licensees and the NRC staff discussed the list of currently open FAQs. The participants determined that both industry stakeholders and the NRC staff needed to continue to work on the remaining open FAQs.

The NRC staff discussed the status of FAQ 08-0053, which deals with Kerite cable categorization. The staff stated that the final test report was not ready for publication, and that they expected to issue it to the public in July.

The NRC staff presented comments on FAQ 10-0059, which deals with the NFPA 805 Monitoring Program, and the licensees discussed them with the staff. The licensees stated that they would be incorporating the comments into a new revision of the FAQ.

Participants agreed that the next FAQ meeting would take place on July 28, 2011, via teleconferencing.

The meeting handouts are available in the Agencywide Documents Access and Management System. The comments on FAQ 10-0059 are available at ML111801113. The May NEI NFPA 805 Task Force FAQ Log is available at ML111510963. The NRC NFPA 805 FAQ status and history document is available at ML111801155.

A list of meeting attendees is enclosed with this memorandum.
