10 CFR 50.54(f)

SUBJECT: Duke Energy Carolinas, LLC  
Catawba Nuclear Station Units 1 and 2  
Docket Nos. 50-413 and 50-414  
60 Day Response to NRC Bulletin 2011-01, "Mitigating Strategies"

On May 11, 2011, the Nuclear Regulatory Commission issued NRC Bulletin 2011-01: Mitigating Strategies. The purpose of this Bulletin is to require licensees to provide a comprehensive verification of their compliance with 10 CFR 50.54(hh)(2) and to request information associated with licensee mitigating strategies per 10 CFR 50.54(hh)(2) in light of the recent events at Japan's Fukushima Daiichi facility. The NRC required each licensee to submit a written 30 day and 60 day response from the date of the Bulletin. Catawba submitted the required 30 day response by letter dated June 8, 2011.

Attachment 1 provides the Catawba 60 day response. The attachment addresses the measures that are currently in place with regard to compliance with 10 CFR 50.54(hh)(2) and contains Security-Related information that should be withheld from public disclosure in accordance with the requirements of 10 CFR 2.390.

There are no new regulatory commitments contained in this letter.

If there are any questions, or if additional information is required, please contact Phil Barrett, Catawba Regulatory Compliance at (803) 701-4138.
