Linda

Thank you -- that is a welcome solution.

Currently, the only Calvert County representative that we have a meeting with is Mr Brady, Public Safety, on Monday at 2pm.

The best block of times for us is Monday 1-3pm (including the time with Mr Brady) and Wednesday 8-11am. We can also be available Wednesday afternoon as well.

Tom,

I have spoken with several Department Heads who have indicated you would like to meet with them to discuss the impact of the reactor. Any of the calls coming in on the reactor project through County Government are going to be referred back over to my office as the point of contact. So, in an effort to make your job easier, I'd like to offer a solution for you. I think it would be best if we could set up one meeting day and have the individuals you need rotate in and out. We can set your appointments on your behalf. Please advise whether this will work well for you and we'll take care of the rest. My assistant, Sandy Bentley, is cc'd on the email should I not be available.

Ms Vassallo / Mr Bowen / Mr Carlson

I work for the Pacific Northwest National Laboratory that has been contracted by the Nuclear Regulatory Commission (NRC) to assist with the preparation of the Environmental Impact Statement (EIS) for the proposed Unit 3 at the Calvert Cliffs Nuclear Power Facility. My role is to collect information to support the socio-economic and environmental justice sections of the EIS.

We (Dan Mussatti of the NRC, and Mike Scott and myself) met with you in June 2007 to discuss concerns or issues that you had for your respective areas of responsibility regarding the proposed construction of Unit 3 at the Calvert Cliffs Nuclear Power Facility.

A site visit and public meetings are planned the week of March 17. If you desire a second meeting, our schedule (Mr Mussatti's and mine) would allow us to meet with you or a representative at your office during one of the following times:

- Monday March 17 at either 1pm or 2 pm
- Tuesday March 18 anytime after 1pm
- Wednesday March 19 anytime after 1pm (note that one of the two public scoping meetings will be held between 1 and 4pm)
- Thursday March 20 between 8 am and 11am.

Please let me know if you would like a follow-up meeting and, if so, will be available to meet with us during one of these times (we anticipate that a meeting will last no longer than 1 hour).

Thank you.

Tom Secrest
