Attention: Mr. Earl Wright

Re: Mail Control #252456

Gentlemen:

In reply to your concern regarding Kanawha Stone Company's licensing for nuclear gauge, please note the following:

1. Fred Hardesty or any other persons using the gauge will complete a two day safety training offered by the manufacturers of the gauge.
2. It is our intention to use Troxler to service the TVR's on a quarterly basis.
3. The nuclear gauge will be kept in a storage building located adjacent to a shop building and behind the office building on plant road in Nitro, West Virginia.

Please let me know if you have any further questions.

Very truly yours,

KANAWHA STONE COMPANY, INC.

Daniel M. White/uc
