Nuclear Regulatory Commission
Region 1, Materials Licensing Section
475 Allendale Road
King of Prussia, PA 19406

Dear Sir or Madam:

Subject: Amendments to License #06-07945-01

03003799

Please be advised that the Radiation Safety Officer (RSO) who supervises and designates those who are to use the nuclear gauges within the Connecticut Department of Transportation (Department) will now be Ms. Teresa Donahue. Ms. Donahue will replace Mr. Howley, who formerly served in this capacity.

Ms. Donahue is qualified for this role as she possesses a Bachelor's Degree in Chemical Engineering and meets the requirements of NUREG 1556, Vol. 1, Rev. 1, Appendix D. Please note that Mr. Howley has been training Ms. Donahue and will continue to assist her as needed.

Please be advised that the RSO will no longer work out of the Department's Office of Research and Materials. The Department's Office of Construction will oversee staff utilizing nuclear density gauges and monitor licensed activities. Effective with this RSO change, the manager of record will be Mr. James Connery, P.E. Attached is an Organizational Chart for your use.

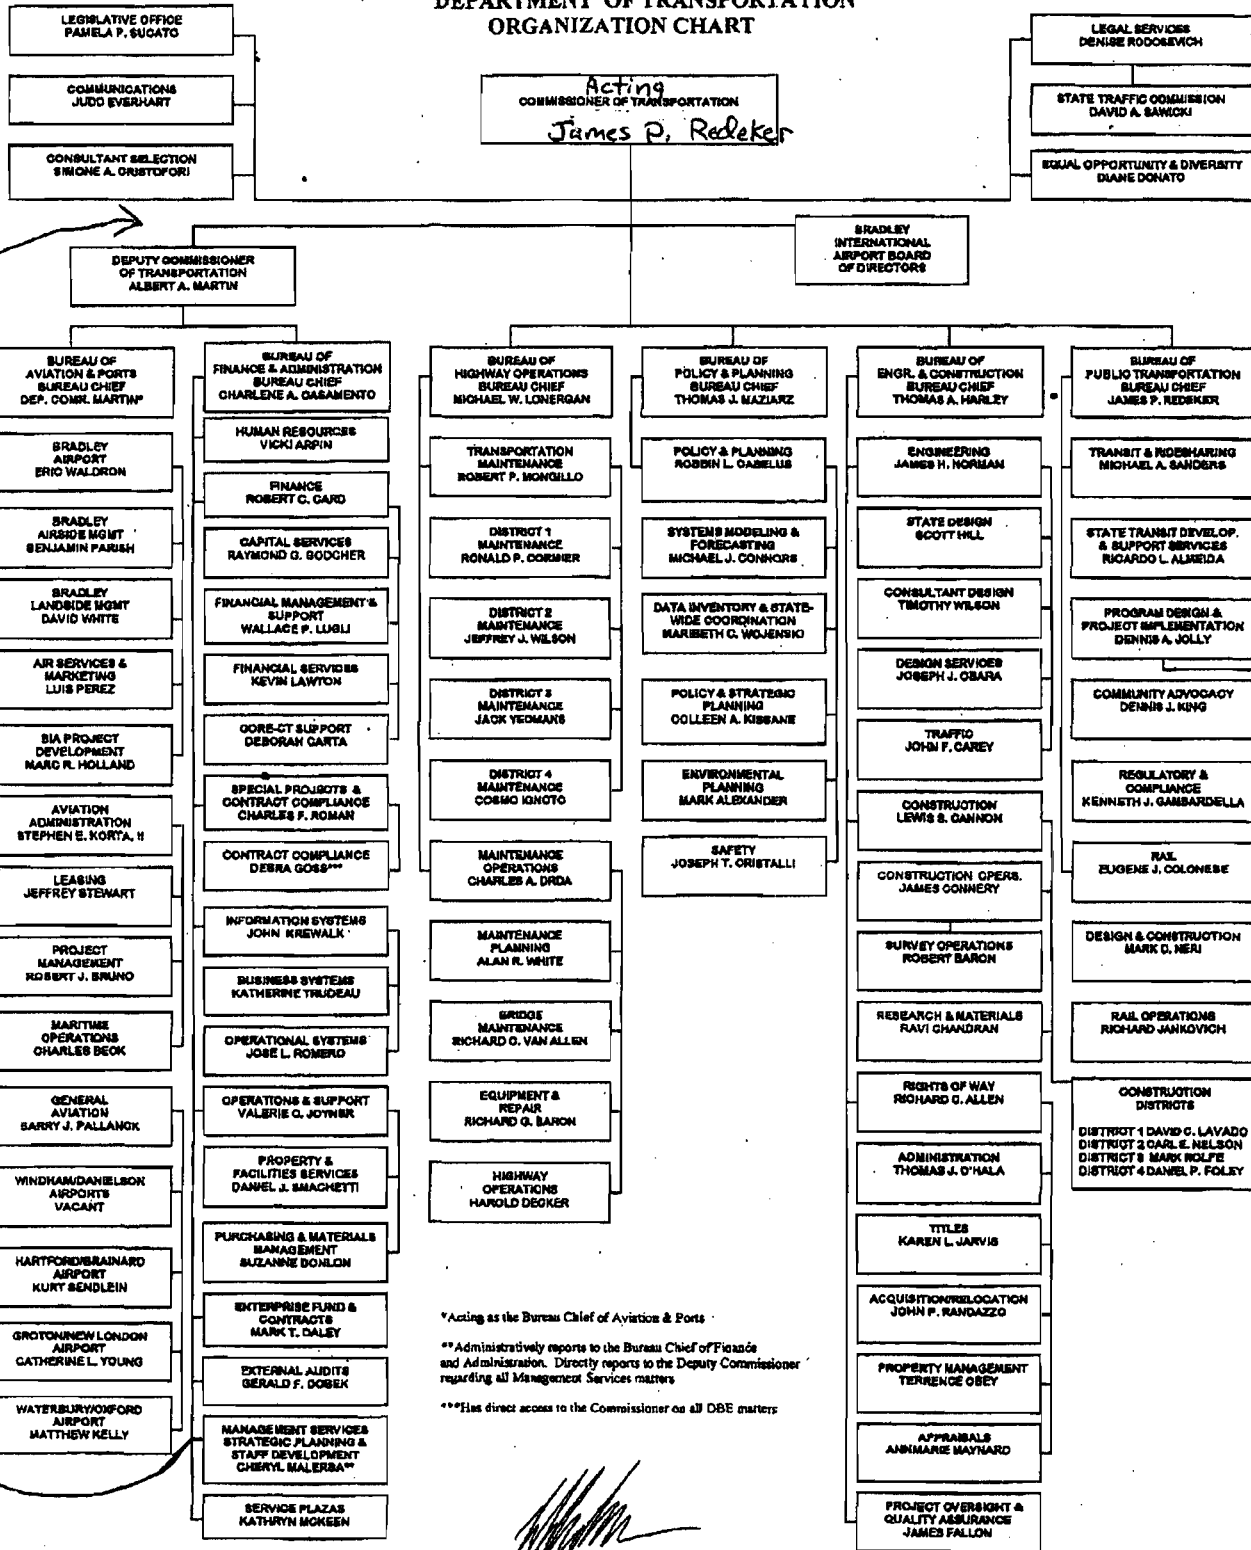

Thank you for your cooperation.

Sincerely,

Ravi V. Chandran, P.E.
Division Chief, Research and Materials
Bureau of Engineering and Construction
