Subject: Docket No. 50-482: Revision to Renewed Facility Operating License Amendment Request and Request for Approval of the Cyber Security Plan

Gentlemen:

Reference 1 provided Wolf Creek Nuclear Operating Corporation's (WCNOC) application requesting Commission review and approval of a Cyber Security Plan in accordance with 10 CFR 73.54. The application included a revision to Section 2.E of the Renewed Facility Operating License, in accordance with 10 CFR 50.90, to incorporate the provisions for implementing and maintaining in effect the provisions of the approved Cyber Security Plan.

5001A  
NRH

Since Reference 1 was submitted, WCNOC has provided responses (References 3 and 5) to two Nuclear Regulatory Commission (NRC) requests for additional information (RAI) (References 2 and 4).

The Enclosure to this letter provides the Cyber Security Plan revised to incorporate the changes described in the responses to the RAIs. The Enclosure supersedes the information provided in Enclosure I of Reference 1.

The revisions to the Cyber Security Plan do not impact the conclusions of the no significant hazards consideration determination provided in Reference 1.

In accordance with 10 CFR 50.91, a copy of this submittal letter is being provided to the designated Kansas State official.

There are no regulatory commitments contained in this correspondence. If you have any questions concerning this matter, please contact me at (620) 364-4190, or Mr. Gautam Sen at (620) 364-4175.

Sincerely,

A handwritten signature in black ink, appearing to be 'SEH', written over a horizontal line.
