SUBJECT: SUMMARY OF PUBLIC MEETING HELD ON JULY 26-27, 2011,
"NEI 99-01 DRAFT REVISION 6 DISCUSSION"

The purpose of this public meeting with the Nuclear Energy Institute (NEI) and industry representatives, known as the Emergency Action Level (EAL) Task Force, was to discuss NEI's proposed Revision 6 to NEI 99-01, "Methodology for Development of Emergency Action Levels," (Agencywide Documents Access and Management System (ADAMS) Accession No. ML110240324). During this meeting, the NRC stressed the importance of understanding that issues raised and discussed were to be considered pre-decisional and only to be considered the opinion and viewpoints of the technical staff rather than an official NRC position.

On July 14, 2011, based on the staff's review of draft Revision 6 of NEI 99-01, the staff provided an email to NEI (Enclosure 2) stating additional topics for discussion (ADAMS Accession No. ML1103403641). NEI provided the staff a revised draft copy of the proposed document with preliminary revisions highlighted to facilitate discussion during this two-day meeting (Enclosures 3 and 4) (ADAMS Accession Nos. ML11202128 and ML112020142, respectively).

The EAL Task Force and staff also discussed the possible EAL enhancement opportunities presented in the Near Term Task Force Review of Insights from the Fukushima Dai-ichi Accident (ADAMS Accession No. ML111861807), as well as draft letter report outlining the preliminary results of a risk-informed EAL pilot study (ADAMS Accession No. ML112070144).

No handouts or presentations were used for this meeting.
