Re: Request to Amend NRC License No. 04-23985-01E Due to Warehouse Relocation.

Dear Ms. Xu:

As you will recall, my letter to your attention dated June 22, 2011 set forth a request for your assistance in amending United States Nuclear Regulatory Commission records to show that the warehouse address of licensee Hitachi America, Ltd., under NRC License No. 04-23985-01E, has changed due to an operational relocation (change to a new third party warehouse logistics service provider).

The purpose of this letter is to provide you with the enclosed copy of an amended possession license (CA License No. 7820-19) issued to Hitachi America, Ltd. by the California Department of Public Health's Radiologic Health Branch this morning.

In combination with the specific amendment requests set forth in our June 22, 2011 letter, we believe you are in receipt of the information and documentation you ordinarily require to complete your review and analysis of NRC amendment license requests.

Of course, if there is any additional information we can furnish to support the processing of Hitachi's amendment request, please do not hesitate to contact me directly (tel. 619-591-5337).

Thank you for your continued support and attention to this matter.

Best regards,

Neal Svalstad
