**Subject:** Next Wednesday's Telecon

John,

For planning purposes, the July 27 weekly (public meeting) telephone conference from 2 pm will not involve our SEB2 folks since we are already in Chicago with NINA/S&L. But I plan to continue to have the call to discuss the following topics:

1. Additional information NINA may have on ACSTIC2 V&V and the new RAI under Chapter 3.9.1 on the same subject.
2. The two 3.9.2 questions given to you in my yesterday's e-mail (see attached).
3. Status of loading the RB seismic and dynamic analysis referenced in the HCU spec.
4. New information, if any, related to the CRD spec. and RAO 03.09.04-1 issued in Letter 380.

If new topics come up between now and Monday, I'll update.

Regards
