Subject: RE: Extension for Semi-Annual Groundwater Report

Chuck,
Thank you for the heads up. A two week extension is granted.

Your annual surety statement has not yet shown up in ADAMS. Can you please check your records to make sure you sent it in? I have received the copy that you sent to me.

Subject: Extension for Semi-Annual Groundwater Report

Tom,

Rio Algom Mining LLC requests a two week extension for the submission of the Semi-Annual Groundwater Report to comply with LC 34D. All ACL samples were collected in the second quarter of 2011, but a scheduling error resulted in 10 wells being sampled too late in the quarter for the results of the laboratory analysis to be available in time to meet the August 1 submission date, as required by LC 34.D. Based on conversations with the lab, we expect to have all results in time to have the report submitted to the NRC by August 15, 2011.

To prevent this issue from recurring in the future, the sampling schedule has been revised to ensure that the analysis will be completed in time for future submission deadlines. Please let me know if the expected revised submission date will be acceptable.

Sincerely,

Chuck

Chuck Wentz
