Lisle, IL 60532-4352

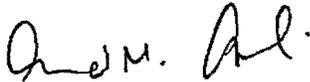

Dear Material Licensing Branch Chief, Radiation Oncology:

Our physicist suddenly delivered her baby earlier than the expected date and because our second physicist is on vacation overseas, we are left without a physicist. We scheduled a few brachytherapy procedures to be done and they can not be delayed.

This letter is to inform you that Roy C. Taylor, MS is currently with St. John Macomb-Oakland Hospital, Macomb Center, Warren, MI 48093. His hospital license number is 21-01190-05 and includes Roy Taylor as an authorized user. Roy Taylor is certified by the American Board of Medical Physics. He was judged to be a very good physicist. I found him to be an excellent choice to do locum physics work until our physicist returns.

We will be using his services from July 28, 2011 until August 20, 2011. Please let me know if you have any concerns or issues.

Thank you kindly,

Ahmed M. Akl, MD  
Radiation Safety Officer
