Subject: Docket ID NRC-2010-0131: STOP the AP1000 approval

Dear Secretary Vietti-Cook,

We cannot afford to take any risk AT ALL with any new facilities which would generate nuclear energy. This is insane in the midst of the crisis we have already been UNKNOWINGLY EXPOSED TO as a result of FUKUSHIMA. By unknowingly I mean ... FOR OVER 43 days now ... YOU HAVE withheld information ... YOU HAVE lied to the American public ... YOU HAVE modified the acceptable levels of radiation ... YOU HAVE said there is nothing for us to be concerned about ... YOUR lies seem to be endless. CLEARLY YOU HAVE PROVEN TO THE AMERICAN PUBLIC YOU CAN NOT BE TRUSTED ... YOU'VE SHOWN THAT YOU CAN NOT step up and speak out in TRUTH and TRANSPARENCY. SHAME ON YOU! You've shown you can NOT be trusted with the overseeing of the nuclear plants we do have! NO MORE NEW NUCLEAR PLANTS! NO MORE NUCLEAR WEAPONS!

Japan's nuclear catastrophe should have been a wake up call to the entire planet. It's unbelievable to me that this continues to be an option in the midst of high levels of radioactive substances from FUKUSHIMA hitting the US and threatening our food supply, our air, our oceans/water, our lives and our health ... and it will be affecting our children and grandchildren for 100's of years. It is criminal to even consider building more nuclear plants ... It is criminal to continue using depleted uranium in wars ... it is criminal the levels of deceit and coverup that we're in the midst of regarding the release of accurate AND timely measurements of the levels of radioactive IODINE 131, CAESIUM 137 AND XENON 133 we've already been exposed to.

If we can't trust you to be transparent and timely with the release of this life threatening information ... how can we possibly be led to believe we could trust you with another nuclear proposal? Shame on you for even asking!!!

Please accept the petition filed by the twelve environmental organizations of the AP1000 Oversight Group to suspend rulemaking. To ensure transparency, please include this comment and all others in the formal review proceedings and post them in the NRC's online library so the public can see any expressed concerns.

I'll close by asking you to take a minute and reflect on this:

What will your response be to your children/grandchildren when they come and ask you ... and believe me they will ... What did you do to stop this? What choices did you make to protect me? Was this the world you really meant to create and pass on to me and my children?

On behalf of my children/grandchildren and children of the earth ... STOP THE INSANITY NOW! STOP TESTING!! STOP BUILDING before it's too late and we're referred to as the first generation who killed it's children and the planet for nuclear energy! I can't live with that sort of an outcome ... Can you?

Debbie Connery
A gravely concerned mother and grandmother
