

August 4, 2011

Dr. Said Abdel-Khalik, Chairman
Advisory Committee on Reactor Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

SUBJECT: REQUEST FOR WAIVER OF ADVISORY COMMITTEE ON REACTOR
SAFEGUARDS' REVIEW OF FINAL RULE: U.S. ADVANCED BOILING WATER
REACTOR AIRCRAFT IMPACT DESIGN CERTIFICATION AMENDMENT

Dear Dr. Abdel-Khalik:

During the 585th meeting of the Advisory Committee on Reactor Safeguards (ACRS or the Committee) on July 13–15, 2011, ACRS completed its review of the request from the Division of New Reactor Licensing, Office of New Reactors, dated June 27, 2011, asking ACRS to waive its review of the final rule on the U.S. Advanced Boiling Water Reactor (ABWR) aircraft impact design certification amendment.

In its letter dated July 20, 2011 (Agencywide Documents Access and Management System Accession No. ML11100A147), ACRS agreed with the staff to waive its review of the final rule, stating that it has no objection to the staff's proposal to issue the final rule. The letter noted that ACRS based its conclusions on its review of the staff's safety evaluation report (SER) related to the requested amendment to the U.S. ABWR design certification.

The staff appreciates the Committee's prompt and thorough review of the aforementioned request and its evaluation of the applicable design certification amendment and the associated SER. We look forward to working with the Committee in the future.

Sincerely,

/RA by Martin J. Virgilio for/

R. W. Borchardt
