Dear Secretary Vietti-Cook,

In the wake of the crisis at Fukushima, it has become clear that improbable does not mean impossible. I strongly urge you to halt, stop, not move forward with the building of any more nuclear reactors.

Also, please accept the petition filed by the twelve environmental organizations of the AP1000 Oversight Group to suspend rulemaking. To ensure transparency, please include this comment and all others in the formal review proceedings and post them in the NRC's online library so the public can see any expressed concerns.
