Dear Mr. Molden:

Due to a change in NRC's licensing policies, we must obtain possession limits for all materials listed on your license. As indicated in a telephone conversation between Leonard Sueper of your staff and myself on July 19, 2011, we have listed the total possession limit (200 millicuries) for licensed materials listed in Subitem 8.B. These changes were made in a corrected copy to Amendment No. 09 to your NRC Material License No. 22-08799-09.

Please read the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in black ink, appearing to read "Cassandra F. Frazier".
