Re: Termination of NRC License 42-29370-01

Attached is Form 314 requesting termination of NRC License 42-29370-01. E&P Wireline Services, LLC ("E&P") requests that this termination be effective on September 1, 2011, the date of E&P's merger with Schlumberger Technology Corporation ("STC") conditioned on the completion of the merger. For marketing purposes, however, E&P will continue to exist as a subordinate business unit of STC under STC's authority and subject to the terms and conditions of STC's license. As described in a letter from Raymond N. Dickes, STC, to you, dated June 17, 2011, the radioactive materials will physically remain at the same location and will continue to be used under STC's authority and amended license, NRC License 42-00090-03. Thus, although the E&P license is being terminated, the termination surveys identified in Part C of Form 314, which are called for in connection with the cessation of licensed activities, are not warranted at this time.

Sincerely,

A handwritten signature in black ink, appearing to read 'Norman M. Whitworth'.

HSE Manager/RSO
