Dear Dr. Hasselquist

Enclosed is Amendment No. 06 to your NRC Material License No. 21-32410-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

This also refers to the change of ownership and change of control transactions which occurred on January 1, 2011, and May 1, 2011, and required an amendment to the license for changes in the licensed name and location of use. NRC hereby consents to the transaction as described in your letters dated January 27, 2011, March 10, 2011, and May 20, 2011.

In addition, we removed the location of use at 4100 Lake Drive, SE, Kentwood, Michigan from this license and concurrently added it to license no. 21-00243-06. We also changed the Radiation Safety Officer on this license to you.

Please address any questions you may have concerning this amendment to me at (630) 829-9841. My fax number is (630) 515-1078.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

B. Hasselquist

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in black ink that reads "Colleen Carol Casey". The signature is written in a cursive style with a large initial 'C'.
