Subject: AJ

AJ just popped in and told me that Jimi said that he should be the one to talk to if anyone has any questions on the report. I told AJ to talk to Pat because I had not heard that Jimi was taking care of any particular matter in SOARCA. AJ also asked about an upcoming management meeting to go over all the comments? I told him I am sure we will talk over the comments but was not aware of any scheduled meeting. AJ then said that he still was concerned that his views were not considered and I told him to talk to you Pat. I also told him that as far as I remember, both he and Jocelyn were fine with the key messages that we used at the ACRS meeting and our goal is to make sure the report consistently reflected these messages. Bottom line, AJ will probably come talk to you Pat.
