Subject: Follow-up to July 22, 2011 Letter

Importance: High

Mr. Siurano,

This e-mail is a follow-up to our letter dated July 22, 2011 letter (AET 11-0038) which requested extension of the implementation date for the U.S. Nuclear Regulatory Commission (NRC) Order (EA-11-013) dated February 10, 2011. USEC Inc. confirms that the basis for NRC approval as documented within the safety evaluation report for the Order has not changed since the issuance of the Order on February 10, 2011.

Sincerely,
Peter J. Miner
