Attachments: MIT Failure; MIT Failure

Betty,

Please place the following e-mails in ADAMS as publicly available.

Thank you.

Ron

Subject: MIT Failure

Ron,

We had a well fail a 5 year MIT test today. It is well I968, and it appears to have failed at the 20' joint. We plan to drill a test hole to ensure that mining solutions have not been released.

Please call if you have additional questions.

Subject: MIT Failure

Ron,

Well P3096 failed a 5 year MIT test at the 40' joint. It appears that this failure is above the historic water level in this area of the mine.

Please call me if you have further questions.
