SUMMARY

This refers to application, NRC Form 313, dated December 22, 2010 (with attachments) and the phone conversation between Adam Doppenberg and Mike Herr on June 13, 2011.

During our review of your December 22, 2010 (with attachments), it appeared that your application had not been prepared in accordance with the guidance in NUREG 1556, Vol. 4, dated October 1998, "Consolidated Guidance about Materials Licenses: Program-Specific Guidance about Fixed Gauge Licenses." This omission has resulted in an incomplete application and we will need you to resubmit your application for renewal in entirety now.

The NUREG previously mentioned needs to be reviewed to ensure you understand the commitments that you will be making in your responses, as discussed below, to Appendix B of this NUREG. Using Appendix B is the simplest way to prepare your renewal and helps to ensure a more complete application.

Please refer to NUREG 1556, Vol. 4 available at our website at:

<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v4/sr1556v4.pdf>

You should already have a hard copy of this NUREG but we are advising you of the website availability of this NUREG also.

Appendix B can be used to capture the information required in Items 5-11 of NRC Form 313, focusing on the responses and commitments in Appendix B.

Please note that certain NRC policies have been modified since its last revision, as noted below:

We now require a total possession limit for each radionuclide requested, as well as providing the "per source" activity you need, which should match the Sealed Source and Device Registry certificate procured by the vendor. Please provide this information and note that it is acceptable to request more sealed sources than you may actually need immediately, to allow for some growth, so long as the request is reasonable and realistic.

You will not be able to change and name your RSO internally; NRC must do that for you via the amendment process. For future reference only, please include the name and qualifications of your proposed RSO and a written, signed and dated statement that stipulates your proposed RSO accepts the RSO position and understands the duties and responsibilities associated with the position. Each proposed RSO must be qualified in accordance with the guidance in NUREG 1556, Vol. 4, Section 8.7, Item 7: Individual(s) Responsible for Radiation Safety Program and Their Training and Experience.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Upon receipt of your response we will resume our review, Address your written response to my attention at the above address and please be sure to reference Control No. 574161 to facilitate proper handling in our office. As a reminder, please provide the information requested in writing, accompanied by a transmittal letter appropriately dated and signed by a senior management official.

ACTION REQUIRED

Please submit the requested information within 4 calendar days (by June 17, 2011) by referencing control number **574161** to facilitate proper handling. Upon receipt of your response we will resume our review. Address your written response to my attention at the above address.

PLEASE DIRECT ANY QUESTIONS YOU MAY HAVE TO MICHAEL G. HERR, CHP at 630-829-9752 OR AT (800) 522-3025, EXT. 9752.
