Re: Notice of Strata Energy, Inc.'s Ross ISR License Application, Crook County, WY

Strata Energy, Inc., (STRATA) has submitted an application to the Nuclear Regulatory Commission (NRC) for a Source and Byproduct Materials License at the proposed Ross facility in Crook County, Wyoming. The application is to construct and operate a uranium *in-situ* recovery facility in the Powder River Basin of Wyoming, approximately 12 miles southwest of the Devils Tower National Monument. The application has been found to be administratively complete and acceptable for technical review by NRC staff on June 28, 2011.

A “Notice of Materials License Application, Opportunity to Request a Hearing and to Petition for Leave to Intervene, and Commission Order Imposing Procedures for Document Access to Sensitive Unclassified Non-safeguards Information for Contention Preparation” was published in the Federal Register on July 13, 2011 (76 FRN 41308). A request for a hearing must be filed by September 12, 2011. The NRC is notifying you of this request as you may have an interest in this action.

The federal register notice information can be reviewed at:
