“Decommissioning Funding Status Report – Request for Additional Information,”
July 15, 2011

Subject: Partial Response to Decommissioning Funding Status Report Requests for
Information (RAIs) and Due Date Extension Request

Dear Mr. Hickman:

This letter responds to your request of July 15, 2011 referenced above.

The referenced letter requested, in part, that *ZionSolutions (ZS)*:

“Provide the amount spend on decommissioning, both cumulative and over the past calendar year, in a schedule showing the expense for each year since the permanent cessation of operations.”

And

“Provide the amount withdrawn from the decommissioning trust fund for expense related to decommissioning planning prior the permanent cessation of operation.”

ZS will provide the information in the above NRC requests for those expenditures and withdrawals from September 1, 2010 forward, covering that period for which ZS has been responsible for the fiduciary duties. ZS does not possess the information for the period(s) prior to September 1, 2010 that is held by Exelon Generation Company, LLC (EGC). In response to our request to EGC for the information above, EGC has declined to provide it directly to ZS but rather requested that NRC to contact EGC directly rather in that they were the licensee responsible for the funds during that time period. Please consider this letter as the communication of the above EGC request. Adam Levin of the EGC staff can be reached for more information.

In order to provide an accurate and comprehensive response, we are requesting an extension of thirty (30) additional days for our submittal to you on September 15, 2011. Your prompt attention to this request will be appreciated. Should you have any questions or require further information, please contact Mr. Patrick Thurman of my staff at (224) 789-4041.

Sincerely,

Patrick T. Daly
