Docket No. 50-331

Iowa Electric Light and Power Company

ATTN: Mr. Duane Arnold
President

IE Towers
P. O. Box 351
Cedar Rapids, IA 52406

Gentlemen:

This is in response to your letter dated October 12, 1979, describing to us your intentions regarding IE Bulletin 79-14.

Our continuing evaluation of your inspection of accessible systems, both at your facilities and the office of your consultant, demonstrate to us reasonable assurance of the operability of these systems. Based on these reviews, relief is granted on the inspection requirement for inaccessible systems until your first quarter 1980 refueling shutdown.

This granting of scheduling relief was discussed in a telephone conversation between you and Messrs. Danielson and Spessard of this office on November 2, 1979.

Your cooperation with us is appreciated.

Sincerely,

James G. Keppler
Director
