Director, Office of Enforcement  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

[REDACTED]

Subject: Order Prohibiting Involvement in NRC-Licensed Activities, Dated  
December 30, 2004 (First Employment Offer)

Dear Director,

Pursuant to the order above, I have fulfilled the five year probationary period (approximately 6 years 5 months). This communication is to comply with the requirement of written notice of any official offer of employment.

As of 6/7/11, I have received a verbal, tentative offer of employment. The exact specification of the position, have not yet been defined. Due to the unknown job responsibilities, I am not yet sure if the position will involve NRC-licensed activities. However, due to the vast cover of NRC jurisdiction, there could be aspects of this position that might consist of NRC activities. The discussions thus far has centered around me reviewing film and/or possibly other NDT methods of inspection.

Just in case this appointment develops into a position that might encroach on NRC-licensed activities, I wanted to make sure that it did not appear that I was attempting to circumvent your requirements. Therefore, I have included (below) the information requested on the order listed above.
