Subject: NRC: No Need For Areva

Dear Atomic Safety and Licensing Board,

In light of worldwide trends, the EIS' assertion that the proposed Areva uranium enrichment factory's environmental impacts are justified -- is not supportable.

Therefore, as required by 10 C.F.R. 51.92(f)(1), the NRC must revise the EIS and publish it in draft for public comment.

If the EIS is not revised and re-published, the application must be rejected

Thank you,

Michael Schwager
