Ron/Roman,

Attached are four Excel spreadsheets files that support the RAP's for the individual sites. These files include the most recent corrections that we discussed by teleconference this week. The corrected materials are highlighted by blue font.

Specifically, as applicable, the spreadsheets are corrected as follows:

- 1.The per sack cement cost has been revised to \$6.82 in the Plugging sheets.
- 2.The formulas have been corrected to include backhoe costs in Sec. V of the Wellfield D&D sheets.
- 3.The formulas have been corrected to include backhoe costs in Sec. IV of the Surface Reclamation sheets.

Please contact me with any questions pertaining to this matter.
