Subject: RE: July 26 Meeting Summary

Sean and Julie,

Below is a short summary of the meeting we had on Tuesday. Feel free to add/delete as you feel necessary. If you could give me your input by COB Monday, it will be appreciated.

Thanks

Meeting with International Isotopes on Human Factors
July 26, 2011

Attendees:
Maria Guardiola-NRC
Julie Marble-NRC
Matthew Bartlett-NRC
Sean Peters-NRC
John Miller-INIS
Steve Laughlin-INIS
Jim Thomas-INIS contractor
Tommy Thompson-INIS contractor

The purpose of the meeting was to discuss with the applicant the Human factors second round of RAIS. Each RAI was discussed so the applicant would have a clear understanding of what was being asked. One of the RAIs inquired the timeframe a Human Factors Engineer will join the design team. INIS responded that at this time, they will not hire a Human Factors Engineer, he/she will be hired during the detailed design phase. After the discussion, NRC staff communicated to the applicant that formal RAIs will be sent to them by the end of the week. INIS indicated that they would revise the criteria that they include for the Human Factors Engineer to be added to the team.
