Subject: Revised Draft RAIs Associated with the Peach Bottom Unit 3 SLMCPR
Amendment Request
Attachments: 2nd Draft RAI.docx

Tom,

Please find attached the Revised RAIs for the Peach Bottom Unit 3 SLMCPR amendment request that resulted from the RAI teleconference held on 8/2/2011 between NRC staff and Exelon representatives. On 8/3/2011 you indicated to me that Exelon will submit a response by August 26, 2011. Please note that if Exelon does not respond to this letter by the agreed-upon date or provide an acceptable alternate date in writing, the NRC staff may reject the application for amendment under the provisions of Title 10 of the *Code of Federal Regulations*, Section 2.108.

John Hughey
