Subject: Additional Response to IE Bulletin 79-08

Reference: Letter dated April 27, 1979
J. Wallace to J. Keppler

File: A-101a

Dear Mr. Keppler:

This letter is in response to Item 11 of the subject bulletin. In the referenced letter we advised you that we would respond by May 18, 1979 but due to an oversight, our response has been delayed.

Item 11 requested that we report on any proposed technical specification changes that result from implementing Items 1-10. Our review has determined that no technical specification changes are required based on the information available at this time. If our continuing review should identify a need for such changes, proposed technical specification changes will be submitted as appropriate.

Very truly yours,

J. A. Wallace
Vice President-Generation
