Mr. A. Bert Davis
Regional Administrator
Region III
U.S. Nuclear Regulatory Commission
799 Roosevelt Road
Glen Ellyn, IL 60137

Subject: Duane Arnold Energy Center
Docket No: 50-331
Op. License No: DPR-49
Inspection and Analysis of Safety
Related HVAC Ductwork

Reference: 1) Letter from D. Mineck (Iowa Electric) to
to J. Lieberman (NRC) dated
February 9, 1990 (NG-90-0318)
2) Letter from D. Mineck (Iowa Electric)
to T. Murley (NRC) dated
November 5, 1990 (NG-90-2457)

File: A-102, A-278, T-41

Dear Mr. Davis:

In LER 89-012 and our response to the Notice of Violation transmitted with Inspection Report No. 89-026 (Reference 1), we committed to inspect all Class 1 HVAC ductwork to verify that the as-built configuration meets the applicable design specifications. We stated that these inspections would be complete by December 31, 1990. The purpose of this letter is to inform you that the completion date for these inspections has been changed to June 30, 1991. This change is documented in our most recent Semi-Annual Update to the Integrated Plan (Reference 2). The Semi-Annual Update is our routine mechanism for communicating such changes in schedule.

During the recent cycle 10/11 refuel outage, we inspected all ductwork in areas not accessible during normal plant operation. No significant deficiencies were identified. Inspection and analysis of accessible ductwork is currently in progress. However, based on the results of the inspections performed to date and the desire to devote our engineering resources to projects of higher priority, we have decided to extend the schedule for completion of this work until June 30, 1991. This date will allow for the efficient completion of the work while minimizing dependence on contractor services.
