David:

Thus far, all 10 CFR 2.390 withholding request made by Exelon since I started as PM have been approved. A response to that end is forthcoming for each request.

Tekia – There have been a couple of Exelon RAI response submittals that transmitted proprietary material and included a 10 CFR 2.390 withholding request. We have not seen a response from NRC approving those withholding requests as yet. Do you have a status on the NRC's response to these requests?

I noticed that the redacted version of a proprietary calculation we submitted was posted in ADAMS today, and that is what prompted my email. I am assuming that NRC did approve the 10 CFR 2.390 request for withholding for this one.

Thanks.
