Iowa Electric Light and Power Company  
ATTN: Mr. Duane Arnold  
President  
Security Building  
P. O. Box 351  
Cedar Rapids, Iowa 52406

Gentlemen:

Please submit up-to-date financial information, including annual reports, within 30 days of the receipt of this letter. This information will be used in preparing financial testimony. The following items should be included in the information submitted to bring the Duane Arnold Energy Center financial data current:

1. Estimated annual costs to operate the unit for the initial five-year period or the period of the license. The types of cost included in the estimate should be indicated and should include (but not necessarily be limited to) interest on investment, overhead, taxes, depreciation, and other operation, maintenance, insurance, and fuel costs. The source of funds to operate the facility should be indicated in some detail.
2. Estimated costs of permanently shutting down the unit, what is included in these costs, the assumptions made in estimating these costs, the type of shutdown contemplated, and the source of funds to cover these costs.
3. Estimated annual cost to maintain the shutdown facility in a safe condition. Please indicate what is included in this estimate, assumptions made in determining the cost, any interest rates assumed, and the source of funds to cover this perpetuity.
4. If participation of any applicant or co-applicant is contingent on receipt of funds from any entity, state the amount of funds, the entities involved, the nature of the contingency, the probability of receiving the funds, date of probable receipt, and all other information needed to clearly explain the contingency.

NOV 30 1972

5. A copy of a prospectus for a recent security issue for each applicant (co-applicant).
6. Annual reports for 1971 and, as soon as available, for 1972 for each applicant (co-applicant).
7. The percentage by which applicants (co-applicants) will share each of the following: (1) costs of operation, (2) costs of permanent shutdown, and (3) costs to maintain a safe shutdown condition.
8. The percentage by which power produced will be owned or shared by each applicant (co-applicant).
9. Any other information which would be needed to determine the financial ability of the applicants (co-applicants) to operate, or shutdown and maintain the shutdown facility in a safe condition.

Sincerely,

Original signed by  
Walter Butler

Walter R. Butler, Chief  
Boiling Water Reactors Branch 1  
Directorate of Licensing
