Gentlemen:

By letter dated July 10, 1972, Mr. Robert Lowenstein submitted Amendment No. 2 to your application for the Duane Arnold Energy Center. It was requested that a portion of the amendment, consisting of (1) a report entitled "Fuel Enrichment, Gadolinia Distribution and Fuel Bundle Outline Information," and (2) the "Industrial Security Plan," be withheld from public disclosure.

We have determined that disclosure of the information contained in these two reports is not required in the public interest nor by Atomic Energy Commission regulation 10 CFR Part 9. Accordingly, we are withholding these reports from public inspection pursuant to Section 2.790(b) of 10 CFR Part 2. Withholding of these reports from public inspection shall not, however, affect the right of persons properly and directly concerned to inspect these documents.

We received twenty copies of your Industrial Security Plan and shall retain only two copies. The 18 additional copies of the Industrial Security Plan are enclosed for your disposition.

Sincerely,

Original signed by

A. Giambusso
