DEC 6 1974

Docket No. 50-331

Iowa Electric Light & Power Company  
ATTN: Mr. Duane Arnold  
President  
Security Building  
P. O. Box 351  
Cedar Rapids, Iowa 52406

Gentlemen:

In the past year, significant new guidance relating to quality assurance activities for the operations phase of nuclear power plants has been issued by the AEC. These are WASH 1284 (10/26/73) "Guidance on Quality Assurance Requirements During the Operations Phase of Nuclear Power Plants," WASH 1309 (5/10/74) "Guidance on Quality Assurance Requirements During the Construction Phase of Nuclear Power Plants," and WASH 1283 (5/24/74) "Guidance on Quality Assurance Requirements During Design and Procurement Phase of Nuclear Power Plants - Revision 1." The latter two documents, while directed primarily to plant design and construction phase activities, are equally applicable to design, procurement, and construction phase activities which may take place over the lifetime of the plant.

Our review of your operational QA program described in the FSAR, as amended for the Duane Arnold Energy Center indicates that the guidance contained in these WASH documents is not addressed. Therefore, you are requested to submit as soon as practical before February 1, 1975, a commitment in your docketed QA Program to follow the guidance in these WASH documents where appropriate. If you wish to take exception to provisions contained therein, identify such exceptions and describe your alternative approach.

Sincerely,

Original Signed

George Lear, Chief  
Operating Reactors Branch #3  
Directorate of Licensing

SEP 18 1974

Docket No. 50-331

Iowa Electric Light & Power Corporation  
 ATTN: Mr. Duane Arnold, President  
 Security Building  
 P. O. Box 351  
 Cedar Rapids, Iowa 52406

Gentlemen:

We have reviewed the security plan for Duane Arnold Energy Center (DA), composed of an original submittal dated July 10, 1974, and revised by letter dated December 11, 1974. We find that the security plan for DA now conforms to the requirements of 10 CFR 50.34(c), 10 CFR 73.40, and the position set forth in Regulatory Guide 1.17 - June 1973. Therefore, the security plan is approved.

Sincerely,

Karl R. Goller, Assistant Director  
 for Operating Reactors  
 Directorate of Licensing
