

June 29, 1982

Docket No. 50-331

Iowa Electric Light & Power Company
ATTN: Mr. Larry D. Root
Assistant Vice President of
Nuclear Division
P.O. Box 351
Cedar Rapids, Michigan 52406

Gentlemen:

We have received a copy of your application dated June 10, 1982, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application (RTS-133) proposed certain Technical Specification changes related to the containment purge and vent system for the Duane Arnold Energy Center. A Class II fee (\$1,200) was remitted with your application pursuant to 10 CFR 170.22.

Based on information provided by the ONRR staff as the result of their preliminary review of your application it has been determined that a Class III fee (\$4,000) is appropriate since the review will involve consideration of a single safety issue. Therefore, you should remit the additional sum of \$2,800 to this office. If the ONRR staff's final review of this application reveals that this fee is not correct, you will be notified and any adjustments will be made.

Sincerely,

Original Signed by
Reba M. Diggs
