Docket No. 50-331

Iowa Electric Light & Power Company
ATTN: Mr. Duane Arnold
President
P. O. Box 351
Cedar Rapids, Iowa 52406

Gentlemen:

By letters dated April 3, 1981 and June 21, 1982, the Division of Licensing (DL) staff completed their review of your application dated June 17, 1980 and issued Amendment Nos. 67 and 77 to Facility Operating License No. DPR-49. This application proposed certain Technical Specification changes relating to organizational structure and definition of operable for the Duane Arnold Energy Center. A Class II fee (\$1,200) was remitted with your application pursuant to 10 CFR 170.22.

Based on information provided by the DL staff as a result of their final review of your application, it has been determined that the Class II fee remitted is appropriate for that portion of the June 17 application relating to organizational structure changes. In addition, a Class III fee (\$4,000) is appropriate for that portion of the June 17 application relating to definition of operable since the review involved consideration of a single safety issue. Therefore, you should remit the additional sum of \$4,000 to this office.

Sincerely,

Original Signed by
Wm. O. Miller
