RE: NRC/State Consultation pursuant to 10 CFR 50.91(b)
effective May 6, 1983.

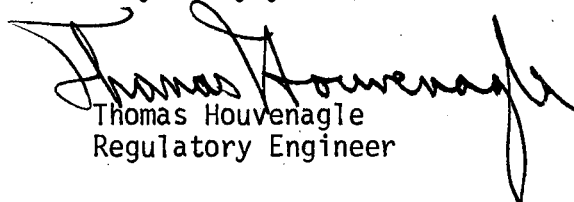

Dear Mr. Muller:

On February 11, 1986, this office received from Iowa Electric Light & Power Company copies of its amendment (to Op License No. DPR-49) request dated February 7, 1986. The request related to radiation monitoring in new radwaste storage facility (LLRPSF). The request was identified as proposed change RTS-203.

On April 7, 1986, this office received the monthly notice of amendment applications to operating licenses involving no significant hazards consideration. At 51 FR 10462 for March 26, 1986, the notice of the subject amendment request was included, and the basis of the NRC proposal for a no significant hazards consideration determination was explained.

This letter is to state that as the 10 CFR 50.91(b)(3) state consultation designated contact, I have no comment.

Very truly yours,

Thomas Houvenagle
Regulatory Engineer
