Revision 4 to Duane Arnold Energy Center
Final Safety Analysis Report (DAEC FSAR)

File: A-116

Dear Mr. Denton:

This letter transmits Revision 4 to the Duane Arnold Energy Center Final Safety Analysis Report (DAEC FSAR). With the exception noted below, this revision reflects changes made through December 31, 1985. In accordance with 10 CFR 50.71(e)(2), those changes that were made under the provisions of 10 CFR 50.59 but were not previously submitted to the Commission are identified in Attachment 1.

Please note that revised Section 13.1, Organizational Structure of Iowa Electric, assumes NRC approval of Technical Specification Change RTS-190, dated September 24, 1985. We understand that such approval will be received shortly and we have chosen to include it so that Section 13.1 will be accurate for the longest possible time that Revision 4 is in effect. The DAEC will continue to follow the organizational structure described in Sections 6.1 and 6.2 of the DAEC Technical Specifications until RTS-190 is approved.
