Mr. Harold Denton, Director  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Denton:

The BWR Owners' Group has submitted the studies and proposed modifications required by Items II.K.3.16 and II.K.3.18 of NUREG-0737. These items concern the reduction of S/RV challenges and the modification of ADS logic.

Our position is the same as that of the Owners' Group. We have implemented some of the proposed changes and others are in-process at the Duane Arnold Energy Center. After further review of the study results, we will implement other changes which are appropriate at the DAEC.

One signed and 39 copies of this letter are transmitted herewith.

Very truly yours,

A handwritten signature in cursive script that reads "Larry D. Root".
