LARRY D. ROOT
ASSISTANT VICE PRESIDENT
OF NUCLEAR DIVISION

Mr. Harold Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Denton:

Appendix 2 to NUREG 0654, Revision 1, requires that by July 1, 1981, a functional description of the upgraded capabilities and schedule for installation and operation of the meteorological system shall be provided.

As a result of the guidance given during the May meeting in Atlanta we believe that a submittal, in response to Appendix 2, by January 1, 1982 is acceptable.

We are still in the process of determining the final design and the schedule for installation and operation of the meteorological hardware and software for our Emergency Response Facilities.

Barring any unforeseen delays, it is our intent to submit a response on the design of the meteorological system, by January 1, 1982. We will keep you informed if there are any further changes in our submittal schedule.

Very truly yours,

for *R. W. McDaughy*
Larry D. Root
Assistant Vice President
