LEE LIU

SENIOR VICE PRESIDENT - ENGINEERING

Mr. Harold Denton, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Denton:

On November 15, 1978, we transmitted a letter stating our intention to delay submission of the Duane Arnold Energy Center Fire Hazard Analysis until January 31, 1979, because our review had not yet been completed. The review has identified the need for some relatively major revisions which must be made to the analysis report, therefore, its submittal will be delayed again. The present schedule has not yet been determined, however, it is anticipated that the delay will have no effect on the schedule for completion of the modifications listed in Table 3.1 of the License Amendment SER.

Very truly yours,

Lee Liu

Senior Vice President-Engineering
